

# Instructions: Travel 4-Sided Golf Car Enclosure

## Installation

1. Drape your Drivable Golf Cart Cover over your golf cart with the zippered panel at the back.
2. Pull the cover down over your golf cart.
3. Attach the elastic hooked straps by each front wheel and behind each door to the bottom of your cart.
4. The side doors open with the zippers. To keep the doors open roll them to the side and fasten them with the provided straps.
5. Pull the elasticized rear bottom hem of the cover down over the rear bumper.

There is also a zippered opening in the back so you can easily load and unload your golf clubs.

## Storage

To store your cover simply roll it up and put into its storage bag. Try to roll rather than fold the clear vinyl to ensure good visibility. **DO NOT STORE YOUR COVER FOR LONG PERIODS WHEN WET**—your cover could mildew.

*Tip:* If the clear vinyl windows on your cover are wrinkled from storage you can smooth them out with a hair dryer—just take care not to melt the window.

## Cleaning

Clean your cover with warm water and a **SOFT** cloth. **DO NOT USE SOAP OR ANYTHING ABRASIVE WHEN CLEANING THE CLEAR VINYL** as it scratches easily.

## Warranty

Your Drivable Golf Cart Cover is factory warranted for defects in workmanship or materials for 1 year after purchase. Trailering your golf cart with this cover on it will invalidate this warranty.

- Rear zippered entry for golf clubs
- Door entry and exit zipper
- The driver and passenger doors can be rolled to the side and held open with straps (doors are shown closed in this photo)
- There are two hooked straps on each side to secure your cover to the cart.
