

# Instructions: Smoker Cover

---

## **⚠ Warning!**

Let your smoker cool before you put your cover on.

## **Installation**

Slip your Smoker Cover over the top of your smoker then pull the cover down all around.

Your cover has an elastic cord in the bottom hem that helps keep the cover on in windy conditions.

If your smoker has legs, you can further secure the cover by putting the legs through the StayOn cord loop along the bottom hem at the corners.

## **Cleaning**

Clean your cover with a soft brush and luke-warm water or machine wash in COLD water. DO NOT USE SOAP as it may remove the protective coatings added by the factory. Line dry or machine dry on air or delicate.

## **One Year Warranty**

This cover is factory warranted for workmanship and materials for one year after purchase.
