

Instructions: Motorcycle Dust Cover

CAUTION

Allow your cycle to cool before installing the cover. You can burn yourself on the hot muffler or engine. A hot muffler or engine will damage the cover.

INSTALLATION

1. Allow your motorcycle to cool then carefully pull your cover down over your cycle. The white label on the bottom hem saying, "FRONT" goes to the front.
2. On each side of the cover there is a grommet and an elastic tie-down hook, these are to secure the cover to the motorcycle. The tie-down hooks can be linked to each other or to the motorcycle to secure the cover.

The grommets can also be used to lock your cover onto the motorcycle. (A lock is not included.)

CLEANING

Clean your cover with a soft brush and luke-warm water or machine wash in COLD water. DO NOT USE SOAP as it may remove the protective coatings added by the factory. Line dry or machine dry on air or delicate.

STORAGE

A handy storage bag comes with your cover. To store just stuff your cover into it. To avoid mildew be sure the cover is completely dry before you store it in the storage bag for an extended period.

ONE YEAR WARRANTY

This cover is factory warranted for workmanship and materials for one year after purchase. Use when trailering your cycle will invalidate this warranty.
